AMENDMENTS TO THE SPECIFICATION:

Please amend the third paragraph on page 12 as follows:

The lens 5 is shaped like a bullet by injection-molding transparent resin such as epoxy resin, and it is positioned at a predetermined position to the leads 2A, 2B on which the LED element 4 is mounted. ~~The~~ Although not shown, the positioning is conducted such that concave portions 201 on the leads 2A, 2B are engaged with convex portions 501 on the lens 5. Alternatively, another positioning method may be used.
